Goal:
Provide centralized access to research, education and outreach about dangerous currents in Michigan.
Dangerous Currents Website

Plans

- Link to all groups involved with rip/dangerous currents.
- Develop and publish new content:
  - Longshore and structural current diagrams
  - Improved public safety messages
- Distill Research Project – MTU/U-M, Dr. Meadows
- Distill information about the revised Designated Beach Policy (DNR)
- Publish any new templates (signs, brochures, other materials)
Dangerous Currents Website

- Promote new dangerous currents curriculum, enhancing the existing Teaching with Great Lakes Data, Great Lakes Lessons website.
Thank You.

QUESTIONS, COMMENTS OR REMARKS?
