Saginaw Bay watershed decision-makers, planners, residents, and partners, you are invited to attend a FREE Saginaw Bay Resiliency Summit.

10 a.m. to 3 p.m. August 15, 2018
Saginaw Valley Research and Extension Center, 3775 S. Reese Road
Frankenmuth, MI 48734

- At the summit, attendees will learn more about the impact of extreme storms and flooding in the Saginaw Bay region while also exploring resiliency strategies.
- Topics include: hazard mitigation strategies, green infrastructure, and more!
- Time for networking over the provided lunch.

There is no cost to attend, but registration is required.

Michigan Sea Grant helps to foster economic growth and protect Michigan’s coastal, Great Lakes resources through education, research, and outreach. A collaborative effort of the University of Michigan and Michigan State University, Michigan Sea Grant is part of the NOAA-National Sea Grant network of 33 university-based programs.

MSU is an affirmative-action, equal-opportunity employer, committed to achieving excellence through a diverse workforce and inclusive culture that encourages all people to reach their full potential. Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, gender, gender identity, religion, age, height, weight, disability, political beliefs, sexual orientation, marital status, family status or veteran status. Persons with disabilities have the right to request and receive reasonable accommodations.

This workshop is organized by Michigan Sea Grant College Program under awards NA14OAR4170285 and NA14OAR4170070 from the National Oceanic and Atmospheric Administration, U.S. Department of Commerce through the Regents of the University of Michigan. The environmental data, statements, findings, conclusions, recommendations and related items of information are those of the author(s) and have not been formally disseminated by the National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or the Regents of the University of Michigan and should not be construed to represent any agency determination view or policy.
